Weeping Trees	9

To Our Friends and Customers

IN presenting our new Price List, which cancels all previous quotations, we take occasion to greet our friends and customers, thanking them for past patronage and assuring them, as well as all new customers, that no effort will be spared to secure their satisfaction by executing all orders in the best possible manner.

WHY YOU SHOULD PLANT TREES—Because a new era of development is taking place in our great Province, the climate of which not only cannot be excelled, but is acknowledged to be superior for the production of all horticultural and farm products and particularly for “home-making” than any other part of the Dominion. The demand for all kinds of garden and farm produce is far ahead of the supply and prices for all fruit properly grown and well packed are all that can be desired from the growers’ point of view, and they are steadily rising yet!

Nor do we want to underestimate the increased value and more so the comfort of contentment easily to be created by the judicious use of Ornamental Trees and Shrubs, and the variety of these is almost unlimited under our favorable climate for the use in the grounds surrounding our homesteads. Nothing will appeal more—for the costliest mansion alike to the humblest dwelling—than a well-kept garden, and a comparatively small outlay for well-grown trees and shrubs will form in a short time a most valuable asset to your properties.

OUR STOCK, THE LARGEST IN THE PROVINCE, embraces the most varied and most careful selected assortments of hardy Nursery Stock in Canada. Many of the leading varieties of both Fruit and Ornamental trees can be supplied in thousand lots of the different sizes, as you can convince yourself if you will only please come to the Nurseries.

All stock sent out is **Strictly First-Class** quality and the **prices are as moderate** as can be quoted for reliable, well developed stock.

SPECIAL OFFER—As a special inducement to our customers we will prepay freight, within a radius of 300 miles, on all orders above \$10, if cash in full is remitted prior to shipment of goods. This offer applies to fruit trees and small fruits only.

Packing cases and bales are charged for at cost unless cash is remitted for goods prior to shipping—when packing also will be free.

On all ornamental stock we will allow a special cash discount of 5 per cent.

REMITTANCES should be made by draft on Victoria, or by express money order or postal money order. On personal outside cheques exchange must be added.

FIVE TREES OR PLANTS OF ONE GRADE AND ONE VARIETY at 10 rate. Fifty at 100 rate. Less than five trees of one sort and grade are supplied at price quoted for single trees, less than 50 at 10 rate.

Claims for shortage or errors must be made within six days after receipt of goods, otherwise they will receive no attention.

WE GUARANTEE STOCK TRUE TO NAME and use utmost care to avoid mistakes, but should any stock prove untrue to label, it is mutually understood and agreed between purchaser and ourselves that we shall in no case be liable for an amount greater than the original cost of the stock that proves untrue to label.

In ordering please give explicit directions as to route, manner of shipment, etc., as it is distinctly understood that our responsibility ceases when the goods are delivered to the transportation company in good order.

To insure the complete filling of orders it is most important that arrangements, for the sorts and varieties wanted, should be made early in the season, especially for Spring shipment. The careful planter makes his plans in good time and has the varieties wanted reserved by the nurseryman till ready for planting. Moreover, orders are filled strictly in rotation in which they come to hand, hence we cannot, except for extraordinary reasons, delay orders received first, for those coming late in the season and requiring attention at once.

THE NURSERIES ARE OPEN DAILY except Sundays, to all who are interested in horticulture, and inspection is cordially invited.

The Layritz Nurseries are situated three miles from Victoria on Junction of Carey Road and Wilkinson Road and can best be reached by Saanich B.C.E.R., from Wilkinson Station, about ten minutes walk from Nursery.

We thank our many customers for their past patronage and hope to merit a continuance of their favors in the future.

Cordially yours,

LAYRITZ NURSERIES,

R. LAYRITZ, Proprietor.

FRUIT DEPARTMENT

Our Fruit Trees are all strictly first class "budded stock," which means in case of yearlings, one year growth on three year old roots.

APPLES

✓ Alexander	✓ McMahon
✓ Baldwin	✓ Missing Link
✓ Banana	✓ Northern Spy

ORNAMENTAL DEPARTMENT

We have now many fine large specimens of both Shade Trees and Evergreens, repeatedly transplanted and fit to give satisfaction and immediate effect in landscape planting. Prices for these will be given on application, but a visit to the Nurseries by parties interested and personal selection is most desirable.

N.B.—Prices on ornamental stock f.o.b. Victoria.

HARDY AZALIA

Azalias and Rhododendrons are the most charming and showy of hardy flowering ornamental shrubs of the day. The climate of B.C. with early and long lasting Spring weather, assures magnificent display of their gay flowers.

Price of Azalia in assorted colors of yellow, orange, pink cream and crimson; plants well set with flower buds to bloom right away:—

Plants, 12 to 15 ins., each, \$1.50; per ten, \$12.50.

Plants, 18 to 24 ins., each, \$2.00; per ten, \$17.50.

BROAD-LEAVED EVERGREENS

In this section we group all “broad-leaved” Evergreens other than Conifers. In transplanting, these two groups alike, need a little extra care because all the leaves have to be supported. However, by repeated transplanting in our nursery they have formed a close ball of fibrous roots and when shipped the balls are tightly wrapped up in canvas. For best results these trees should be planted without removing this canvas, only cut open the string which is holding it together after the trees have been set firmly in position and the new roots soon work their way through the decaying canvas.

RHODODENDRON

New Sorts

PINK PEARL, a decided improvement; flowers very large, of a bright glossy pink. This is by far the very best Rhododendron.

WHITE PEARL, very similar in form and size to Pink Pearl, but almost white in color, particularly when forced. Outdoors it is fleshy pink when open, turning fleshy white as it develops.

STRATEGIST, delicate pink, large truss.

Strong specimens, with many flowers, from \$5.00.

General

The following are the best of bright and attractive colors of the older varieties:—

Blandianum, rosy crimson.

Boule de Neige, white.

Chevalier Felix de Sauvage, fine red, dark spots.

Cuninghami, blush white, early.

Fastuosum flore pleno, double lavender.

Gomer Waterer, blush, fine.

Kate Waterer, light red.

Madame Maison, white, yellow centre.

Michael Waterer, bright red.

Monsieur Thiers, brilliant rose.

Lady Clermont, rosy scarlet.

Prince Camille de Rohan, rosy, crimson centre.

Mrs. R. S. Holford, salmon crimson.

Strong plants, to flower immediately, with from 4 to 30 flower buds, \$2.00 to \$5.00 each.

CONIFEROUS EVERGREENS

This division embraces really the most beautiful evergreen trees suitable for our climate. When planted as specimens most of them require no pruning, in fact their natural and picturesque beauty would be impaired by it. When dug for shipping all these trees are balled and the burlap must not be removed when planting.

ROSES

Our stock of this most popular of all ornamental plants embraces all the leading varieties of the day, including the most valuable novelties of both American and European origin. At the same time we have discarded anything which has been surpassed by improved sorts, or did not come up to the standard in regard to robust, healthy habit and hardiness, and freedom of bloom. All plants sent out are grown in the open field, and with ordinary care they will give a full crop of flowers the first season after planting. Fall planting is most satisfactory, particularly on the Coast where Roses often begin to grow again shortly after New Year.

To simplify matters, our Roses are now listed in alphabetical order, irrespective of the class, but there have been added behind the name of every rose the initial of the class to which they belong. Thus T. stands for Teas and Ever-blooming Roses; H.T. for Hybrid Teas; H.P. for Hybrid Perpetuals; Pol. for Polyanthus; Wich. for Wichuriana, and Per. for Pernetiana Roses.

NEW AND RARE ROSES OF RECENT INTRODUCTION

Prices—Strong Plants, except where noted, \$1.00;
\$9.00 per 10.

Admiral Ward, H.T.—Crimson Red, with fiery red and velvety reflex. Large, full, globular shaped flowers. Vigorous and healthy growth. Gold Medal N.R.S.

Baby Jean d'Arc, P.—Pure white, large trusses of full, well-formed flowers, fine clean foliage and very free flowering.

Baby Orleans, P.—Flowers of a bright Geranium-pink; florets not crowded, but of a beautiful arrangement.

Bouquet d'Or., T.—Clear yellow, copper centre, full, free and hardy. A fine variety of "Gloire de Dijon" type. Has grown for two years in our nursery and certainly is good. Unlike the Dijon, it is free from mildew.

British Queen, H.T.—Described as one of the finest white roses in existence, surpassing in purity and elegance of form "Frau Karl Druschki," very free and abundant bloomer, opening freely in all weathers.

Carine, H.T.—A most fascinating Rose of a combination of colors, changing from orange carmine to creamy fawn and coppery salmon; very fragrant.

Chateau de Clos Vougeot—Velvety scarlet, shaded fiery red, changing to dark velvety crimson.

Climbing Etoile de France.—One of the best "Red Climbers" in existence; does not "burn" even in the greatest summer heat.

Climbing Sunburst, T.—Same as the well-known Bush. It is strong and vigorous and quite hardy. One of the very best. \$1.50 each.

Climbing White Maman Cochet, T.—The best climbing rose of this color yet. Where heavy clean foliage is desired, use this variety.

Colleen, H.T.—Brilliant rose, shaded rose pink with deeper rose-crimson veneering and distinct creamy yellow ground, never fading until petals drop. Full, well-shaped flowers. Gold medal National Rose Society of England. \$1.50 each.

Countess Clanwilliam, H.T.—Large, full peach pink flowers of great beauty are produced in endless abundance. Petals of flowers, flamed and heavily edged with deep cherry red. A most charming color contrast, bringing out in great distinctness the strong individuality of this wonderful Rose. Gold medal N.R.S. \$1.50 each.

Dorothy Page Roberts, H.T.—Coppery pink, with suffused apricot yellow. Gold medal N.R.S.

Dr. W. Van Fleet, Wich. Hybrid.—A great acquisition in this class. Flowers when open run four inches and over in diameter. The centre is built high, petals beautifully undulated and cupped. The color is a remarkably delicate shade of flesh-pink.

Duchess of Wellington, H.T.—Intense saffron yellow, flushed crimson. An excellent rose.

George Dickson, H.T.—Color velvety, dark crimson, splendid shape and good substance.

Georgious, H.T.—Flower large and full, exquisitely formed and produced in endless profusion. Deep orange yellow and heavily veined with reddish copper. The most charming and gorgeous color imaginable. Gold medal Nat. Rose Society.

Harry Kirk, T.—Creamy yellow with bright amber centre; buds deeper in color and long pointed. The open flowers are double, saucer shaped and of a delicious fragrance; bush very vigorous with rich glossy green foliage.

Hoosier Beauty, H.T.—Glowing crimson-scarlet, with darker shadings. Buds of good length and ideal shape; ample petalage, with a texture like velvet, opening into a magnificent bloom of dazzling brilliance. Sweetly fragrant. Also a strong and clean grower, free from spot and mildew, producing long, stiff stems with a bud in every shoot, thus making this rose as nearly perfect in its class as we can desire. \$2.00 each.

Jeaune Bicolor, Austrian Briar.—This is an exceedingly attractive little rose; the inside of the petals is a brilliant orange-scarlet, the outside a rich golden yellow color.

Jonkheer J. L. Mock, H.T.—This is a grand Rose of immense size, noble form, and of a clear imperial pink color. Being very free flowering, too, and a healthy strong grower, it is bound to become very popular when properly known.

Joseph Hill, H.T.—Salmon pink, with a deep orange shade; extra fine.

Juliet.—This is a very distinct and attractive novelty. Outside of petals old gold, interior rich rosy red, changing to deep rose as the flower expands; deliciously fragrant.

Irish Fire Flame, H.T.—A beautiful single Rose—a glorified Irish Elegance. Long buds of crimson and orange shades.

King George V., H.T.—A superbly shaped, very large Rose of rich blackish crimson color with a deep velvety finish. Very vigorous grower, with resistant leathery foliage. Gold medal.

Killarney, H.T.—Deep shell pink, very long pointed buds and, although only semi-double, of great beauty. Very free flowering and fragrant.

Lady Hillington, T.—A long, slender pointed bud of brilliant deep apricot yellow; very free flowering and a good grower.

Lady Battersea, H.T.—Brilliant cherry red. A strikingly beautiful Rose with long well-formed flowers borne on long stout stems well above the foliage.

Laurent Carle, H.T.—Deep rosy carmine; large, full, very free and constant.

Los Angeles, H.T.—Los Angeles is, by all odds, one of the finest Roses ever introduced. The growth is very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink toned with coral and shaded with translucent gold at the base of the petals. In richness of fragrance it equals in intensity the finest Marechal Neil. The buds are long and pointed and expand into a flower of mammoth proportions, while the beauty of form and ever-increasing wealth of color is maintained from the incipient bud until the last petal drops. Price \$2.00 each.

Lyon Rose, H.T.—Shrimp pink, centre coral red, shaded with chrome yellow. A superb rose.

Mme. Edouard Herriot, or Daily Mail, Per.—Superb coral red, shaded yellow at base, passing to shrimp red. A wonderful coloring hard to describe in its striking beauty which at first sight really seems artificial. The buds are perfectly formed and produced in continuous profusion; in fact, this is the freest blooming rose we have ever known and in our opinion it is far and away the greatest Rose novelty ever introduced, bound to become the most widely grown variety, for our conditions, anyway. \$1.50 each.

Mme. Jules Grolez, T.—Bright China red, large full high centre flower, with nice reflex petals. A bedding rose of rare attraction.

Mrs. Wemyss Qulinn, H.T.—Intense chrome yellow, flushed orange, becoming deep canary yellow when fully opened. Very free flowering and sweetly fragrant. This most attractive Rose may best be described by being called the improved "Rayon d'Or." \$1.50 each.

Mme. Ravory, H.T.—Orange yellow, tinted flesh and creamy buff. A color hard to describe but very fine. Buds are pointed, open flowers cup shaped, richly fragrant; very floriferous.

Madame Segond Weber, H.T.—This grand rose, of a rosy salmon color, deserves all the praise it has received; deliciously fragrant.

Mme. Soupert, T.—The cup-shaped, heavily petalled flowers are of the richest dark yellow imaginable, very highly tea scented and of great lasting quality; the thick leathery foliage comes out in a pretty bright red, turning later on to a dark glossy green, and is never affected by any disease. Highly recommended.

Marechal Niel, Climbing Tea.—Rich golden yellow, flowers of immense size with the deepest, richest tea-fragrance of all roses. Should be planted in warm sheltered spot.

Melanie Sopert, H.T.—Saffron yellow. A fine heavy petalled rose of great substance, producing endless lots of well shaped long buds.

Miss Alice de Rothschild, T.—Rich, deep citron, free bloomer; buds long and pointed; Mar. Niel perfume.

Mrs. Aaron Ward, H.T.—Copper and golden yellow; flowers full and of fine form. A strong grower and all round a valuable Rose.

Mrs. Andrew Carnegie, H.T.—Lemon White, very large and highly pointed flowers produced very freely. The Everblooming and scented "Druschky."

Mrs. F. W. Vanderbilt, H.T.—Color deep orange-red, shaded bronzy-apricot-red. Gold medal, N.R.S.

Mrs. W. Christie-Miller, H.T.—Soft, pearly blush, shaded salmon, clear rose guard petals. Large, loose flowers of distinct and novel appearance. Very pretty and exceedingly floriferous.

National Emblem, H.T.—Deep crimson, long pointed buds of perfect shape and habit. Very free flowering and delightfully perfumed. Mildew proof foliage. \$1.50 each.

Old Gold, H.T.—A delightful Rose of vivid reddish orange, moderately full; buds, however, are of wonderful beauty. Mildew free foliage.

Ophelia, H.T.—Salmon flesh, shaded with rose; large and perfect shape. A glorious Rose.

Prince de Bulgarie, H.T.—Silvery flesh, very delicately shaded with salmon, very attractive and desirable.

Red Letter Day, H.T.—An exceeding beautiful rose of infinite grace and charm. Its velvety, brilliant, glowing scarlet-crimson buds and fully opened cactus-like flowers never fade, as the reflex of the petals is satiny-crimson-scarlet. Gold Medal, N.R.S. \$1.50 each.

Shower of Gold.—Climber; this is a great addition to our Climbing Roses; in fact, it is the very best yellow of the Wichuriana Class. Deep golden or saffron yellow.—Like W. A. Richardson. Fine, healthy foliage.

Silver Moon, Wichuriana.—Climber. Flowers very large, four to five inches in diameter. Pure white in color; petals of great substance, beautifully cupped, forming a singular clematis-like flower. The large bunch of golden stamens in the centre adds to its attractiveness.

Souv. de Catherine Guillot, T.—Crimson with orange yellow. A most attractive new Rose.

Souv. Maria Zayas, H.T.—This is a superb Rose for our climate; an extra strong grower, with robust, clean foliage and very free flowering. The buds are perfectly shaped, of a bright carmine color. Highly recommended.

Sunburst, H.T.—A vigorous, erect grower, with very few thorns and fine reddish green foliage; buds long and pointed, generally carried singly on long stout stems; flower of beautiful form, large and full, orange yellow with deeper centre.

Rayon d'Or, Per.—An incomparable Rose; color a coppery orange, streaked with bright scarlet bars, which when bloom is expanded becomes sunflower yellow. Clean healthy foliage.

Mm. R. Smith, or Maiden's Blush, T.—The soft blendings of salmon and rose-pinks and the beautiful flesh tints in this Rose give it a singular resemblance to the entrancing flush on a maiden's cheek.

General Collection of Roses

Price: Strong Plants, 75c each; \$6.00 per 10.

American Pillar-Climber.

Baroness Rothschild, H.P.—Pure rose.

Captain Christy, H.P.—Flesh- white.

Capt. Hayward, H.P.—Bright red.

Climbing Car. Testout.—Rosy-pink.

Climbing Cecille Brunner.—Salmon pink.

Climbing Druschky.—Pure white.

Climbing K. A. Victoria.—Ivory white.

Climbing Perle des Jardins.—Yellow.

Climbing Teplitz.—Scarlet.

Crimson Rambler, Pol.—Crimson climber.
 Dean Hole, H.T.—Large, carmine, shaded salmon.
 Dorothy Perkins, Wich.—Pink climber.
 Excelsa, Wich.—Crimson, clear foliage.
 Frau Karl Druschky, H.P.—Snow white; fine.
 General Jacqueminot, H.P.—Scarlet.
 Gen. McArthur, H.T.—Scarlet.
 Gloire de Dijon, T.—Salmon to blush, climber.
 Gruss an Teplitz, H.T.—Scarlet crimson.
 Hugh Dickson, H.P.—Bright dark red.
 Kaiserin Augusta Victoria, H.T.—Creamy white.
 Lamarque, T.—White, climber.
 Mme. Abel Chateney, H.T.—Rose vermillion.
 Mme. Alfred Carriere, T.—White, climber.
 Mme. Caroline Testout, H.T.—Silvery-rose.
 Mlle. Cecil Brunner, Pol.—Salmon-pink.
 Maman Cochet, T.—Pink.
 Mrs. John Laing, H.P.—Rose.
 Muscosa Communis.—Pink moss.
 Papa Gontier, T.—Red.
 Paul Neyron, H.P.—Rose.
 Perle d'Or, Pol.—Yellow.
 Persian Yellow.—Lutea, yellow.
 Rainbow, T.—Cream, striped yellow and red.
 Reve d'Or, T.—Apricot yellow, climber.
 Snow Queen, H.P.—See F. K. Druschky.
 Soleil d'Or, H.P.—Golden, with pink centre.
 Souvenir de President Carnot, H.T.—Flesh white.
 Tausendschon.—Pink, turning to bright rose, climber.
 Ulrich Brunner, H.P.—Crimson.
 Viscountess Folkstone, T.H.—Flesh colored.
 Veilchen Blau.—Blue; the long thought for Blue Rose in reality! Climber.
 White Dor. PePrkins.—Climber.
 White Moss.
 White Maman Cochet, T.—Creamy white.
 White Rambler.—White, blush centre.
 Wm. Allen Richardson, T.—Orange yellow.
 Winnie Davis, H.T.—Apricot and salmon pink.

STANDARD ROSES

Our Standard Roses are budded on Nursery-grown Rosa Canina seedling stems. They are young thrifty stock, exceedingly well rooted, full of vigor and not only certain to grow, but they will last and continue to bring full crops of flowers for many years to come. They are a wonderful improvement over the native briar stocks from the roadsides used formerly, which invariably had poor roots and consequently were short-lived. Besides some of the most desirable older sorts, we have now quite a number of the newest varieties in standard form and a full list of assortment will be given on application.

Price of strong standards on stems budded about four feet high: General assortment, each \$2.00; new sorts, each \$2.50.

HERBACEOUS PLANTS

The following embrace the very best selection of this desirable class of plants.

	Each	10
Achillea, the Pearl, double white flower	\$.15	\$1.00
Anemona Japonica	.50	4.50
" Honorine Joubert, pure white	.50	4.50
" Mont Rose, double soft rose...	.75	6.00

PAEONY, HERBACEOUS

The following list embraces the best varieties of the different colors of this popular flower. Paeonies want strong ground and sufficient room to come to their best; transplant best in Autumn.

	Each	10
Strong roots with 2 to 3 buds	\$.75	\$6.00
Extra strong undivided four year old clumps	2.00	15.00
Anemoniflora rubra—Dark crimson with a centre of small, ligulated petals.		
Beaute Francaise.—Delicate flesh pink, with purple and carmine spots. Very fine.		

Chrysanthemiflora—Guard petals white, shaded flesh color, centre white and bright yellow, extra, very early.

Doyen d'Enghien—Dark violet rose (royal purple).

Eduis superba—Very large and perfectly shaped flower, brilliant pink with violet shade, mixed with white narrow petals with a silvery reflection.

Faust—Pretty anemone shaped flower, guard petals soft lilac, those of the centre narrow and clear chamois.

Festiva maxima—Pure white, some petals in centre carmine spotted.

General Bertrand—Salmon color, with rose centre.

Jeanne d'Arc—Large soft pink flower, centre sulphur white, with brilliant pink, some petals carmine spotted. Fragrant, good producer and strong grower.

Louis van Houtte—Bright, violaceous red.

Modeste Guerin—Perfectly built flower, bright carmine.

Queen Victoria—Compact large flower, guard petals broad, flesh white when opening.

Rubra triumphans—Bright purplish crimson.

The Bride—Single flower, large white.

Zoe Calot—Large, very double globular shaped bloom of a tender rose color, shaded with lilac; very desirable.

HEDGE PLANTS

	10	100
Berberis, dulcis , 2 to 3 ft.....	\$4.50	\$35.00
Dwarf Box	1.00	7.50
Caragana , 12 to 18 ins.....	1.50	10.00
Hawthorn, English , 24 to 30 ins.....	1.00	7.50
Holly, English , 15 to 20 ins., twice trans- planted	* 4.00	35.00
Holly, English, Larger sizes, price on application.		
Norway Spruce , 24 to 36 ins., balled....	5.00	45.00
Norway Spruce , 3 to 4 feet, balled....	7.50	60.00
Norway Spruce, prices for larger sizes on application.		
Spiraea, Van Houttei , 3 to 4 ft., strong	2.50	18.00
Pyrus Japonica , 20 to 24 inches.....	3.00	25.00
Privet, English , 2 year	1.50	12.50
Privet, English , 3 years, strong	2.00	15.00
Poplar, Lombardy , 6 to 8 feet	6.00	50.00
Poplar, Lombardy , 8 to 10 ft., strong...	7.50	60.00
Yew, English , 18 to 20 ins.	3.50	30.00
Yew, English , 24 to 30 ins., balled	5.00	45.00
Yew, English , 2 to 3 feet, balled	10.00	90.00

The Layritz Nurseries

A Few Suggestions for Planting and Pruning

HOW TO HANDLE NURSERY STOCK—On the receipt of the trees, unpack immediately, open a ditch in loose, damp soil, put in the trench side by side and cover the roots with fine earth, being careful that it is well filtered among the roots to keep them moist until ready for planting.

IN PLANTING, the holes should be dug at least eight inches to a foot larger in every direction than required by the roots when spread out in their normal position. The top soil should be broken down from the edge, and raised to a cone in the centre of the hole to set the trees on, and the roots then brought to their natural position. Shovel in the top soil, which should be made quite fine, carefully between the roots until covered, then tramp firmly as the filling up progresses.

In light soil stand from two to three inches deeper than it stood in the Nursery, but in heavy clay, or wet ground, it is advisable to have it stand at the same height as it was before transplanting.

ORNAMENTALS—In our coast climate both evergreens and deciduous trees can be transplanted successfully during the winter months, that is from the end of October, when the leaves begin to fall, until April, when they start to bud again, but most deciduous trees and shrubs, and particularly roses, give best satisfaction when planted in the fall or at any rate when they are entirely dormant. On the other hand Conifers and Broadleaved Evergreens, which are shipped with a solid ball of soil adhering to the roots may be transplanted up to a much later date, in fact they will even transplant successfully when the buds have burst.

DECIDUOUS TREES and SHRUBS—The tops of deciduous trees and shrubs should be pruned in proportion to the amount of roots lost in transplanting. Their natural shape should be preserved as much as possible. The depth of the hole should permit the neck of the plant to be as near the surface of the ground as it was originally. Firm soil well around the roots and water thoroughly. Do not put manure among the roots when planting. A good mulch of manure or straw on the top of the ground around the plant will be beneficial.

All broken or bruised roots should be cut back with a sharp knife to good sound wood. In planting deciduous trees or shrubs with bare roots, the hole should be large enough to allow all the roots to be spread out to their full length and in their natural position.
